

Note from Bob Savanich.

I met the organizer for CorvetteFest. His name is DanieI Gallardo (he's 18 years old). I went to his gathering a few Sundays ago in Santa Ana and 50 Vettes showed up. He's having another get together, Sunday September 27th. See flyer below. I want to blast this out to the members but I want you to check out the flyer first.

The other thing is it a huge generational gap. Most of the Vettes are owned by 20 and 30 somethings. A sprinkling of 40's, 50's and 60's. Spoiler alert, I Believe I was the oldest guy there. The "kids" were cool, respectful, and hung out in small groups. Kinda like us older guys and gals do. Oh, there were young gals with many of the owners. These weren't raggedy Vettes. Most were real nice leaning toward turbos and tricked out. Most had engine work done and aftermarket exhaust.

Realistically I don't see a lot of PCC prospective members due to the central OC location of most of the owners. However, I noted to Sandy that the future of Corvettes looks to be fine. You never know though if a South County Vette or two comes down for the gathering. We may be able to snag one or two Grey haired guys or gals.

CorvetteFest welcomes Corvettes and any LS or LT powered cars. There were several hot Camaros.
